Electrical Work at St Peter's Church

I would like to thank parishioners for their patience while the electrical work was being carried out over the last few weeks in St Peter's Church. As, you will have noticed I have installed a few extra outside lights, as some areas around the Church were very dark. There were a few lights in the inside of the Church that haven't been working for a while and needed replacing along with some other light fixtures that had seen better days and these have also been replaced. Some new sockets have also been installed in the Gallery for health and safety reasons. Hand driers and extractor fans have also been installed in the toilets and new light fittings were installed in the kitchen in the Oratory. Thank you to all the parishioners who have contacted me with regard to the work and for their very positive feedback.
